DETAILED ACTION

Allowable Subject Matter

1. Claims 1-78 are allowed.
2. The following is an examiner's statement of reasons for allowance: No prior art has been found to disclose or suggest the combined steps of using an image sensing device to produce a sparsely sampled high resolution digital image having fast pixel values produced by fast photosites and slow pixel values produced by slow photosites, and generating a tone scale function using only slow pixel values from the sparsely sampled high resolution digital image, as recited in base method claim 1, or as similarly recited in base system claim 27. Base method claim 14 and base system claim 40 further recite generation of a tone scale function using only slow pixel values from the sparsely sampled high resolution digital image, if saturation is present in the fast pixel values.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thomas D. Lee whose telephone number is (571) 272-7436. The examiner can normally be reached on Monday-Friday (7:30-5:00), alternate Fridays off.
